1. Purpose

1.1 Section 13 of the Northern Cape Provincial Archives and Records Services Act No 7 of 2013 requires Dawid Kruiper Municipality to manage its records in a well-structured record keeping system, and to put the necessary policies and procedures in place to ensure that it’s record keeping and records management practices comply with the requirements of the Act.

1.2 Information is a resource of the same importance to good management as other standard resources like people, money and facilities. The information resources of Dawid Kruiper Municipality must therefore be managed as a valuable asset. Appropriate records management is a vital aspect of maintaining and enhancing the value of this asset. Dawid Kruiper Municipality considers its records to be a valuable asset to:

- enable Dawid Kruiper Municipality to find the right information easily and comprehensively;
- enable Dawid Kruiper Municipality to perform its functions successfully and efficiently and in an accountable manner;
- support the business, legal and accountability requirements of Dawid Kruiper Municipality;
- ensure the conduct of business in an orderly, efficient and accountable manner;
- ensure the consistent delivery of services;
- support and document policy formation and administrative decision-making;
- provide continuity in the event of a disaster;
- protect the interests of Dawid Kruiper Municipality and the rights of employees, clients and present and future stakeholders;
- support and document the Dawid Kruiper Municipality’s activities, development and achievements;
- provide evidence of business in the context of cultural activity and contribute to the cultural identity and collective memory.

1.3 Records management, through the proper control of the content, storage and volume of records, reduces vulnerability to legal challenge or financial loss and promotes best value in terms of human and space resources through greater co-ordination of information and storage systems.

2. Policy statement

2.1 All records created and received by Dawid Kruiper Municipality shall be managed in accordance with the records management principles contained in section 13 Northern Cape Provincial Archives and Records Services Act No 7 of 2013

2.2 The following broad principles apply to the record keeping and records management practices of Dawid Kruiper Municipality:

- Dawid Kruiper Municipality follows sound procedures for the creation, maintenance, retention and disposal of all records, including electronic records.
- The records management procedures of Dawid Kruiper Municipality comply with legal requirements, including those for the provision of evidence.
- Dawid Kruiper Municipality follows sound procedures for the security, privacy and confidentiality of its records.
Electronic records in the Dawid Kruiper Municipality are managed according to the principles promoted by the Northern Cape Provincial Archives and Records Services Act No 7 of 2013. Dawid Kruiper Municipality has performance measures for all records management functions and reviews compliance with these measures.

3. Relationship with other policies
3.1 Dawid Kruiper Municipality’s Records Management Policy consists of this policy as well as additional parts that cover the unique nature of the broad spectrum of records generated by Dawid Kruiper Municipality. These policies are managed by the Records Manager. The following parts exist:

14. **Definitions**

*Archives repository:* The building in which records with archival value are preserved permanently.

*Authentic records:* Authentic records are records that can be proven to be what they purport to be. They are also records that are considered by the creators to be their official record.

*Authoritative records:* Authoritative records are records that are authentic, reliable, trustworthy and useable and are complete and unaltered.

*Correspondence system:* A set of paper-based and electronic communications and associated documents, sent, received, generated, processed and stored during the conduct of business.

*Custody:* The control of records based upon their physical possession.

*Disposal:* The action of either destroying/deleting a record or transferring it into archival custody.

*Disposal authority:* A written authority issued by the National Archivist specifying which records should be transferred into archival custody or specifying which records should be destroyed/deleted or otherwise disposed of.

*Disposal authority number:* A unique number identifying each disposal authority issued to a specific office.
**Electronic records:** Information which is generated electronically and stored by means of computer technology. Electronic records can consist of an electronic correspondence system and electronic record systems other than the correspondence system.

**Electronic records system:** This is the collective noun for all components of an electronic information system, namely: electronic media as well as all connected items such as source documents, output information, software applications, programmed and Meta data (background and technical information i.r.o. the information stored electronically) and in hard copy. All these components are defined as records by the Act. They must therefore be dealt with in accordance with the Act’s provisions.

**File plan:** A pre-determined classification plan by which records are filed and/or electronically indexed to facilitate efficient retrieval and disposal of records.

**Filing system:** The collective noun for a storage system (like files, boxes, shelves or electronic applications and storage systems) in which records are stored in a systematic manner according to a file plan.

**Non-archival records:** Records with a short lived interest or usefulness.

**Public record:** A record created or received by a governmental body in pursuance of its activities, regardless of form or medium.

**Records other than correspondence systems:** Records that do not form part of a correspondence file, or a case file e.g. registers, maps, plans, electronic records, audio-visual records, etc.

**Record:** 1) Recorded information regardless of form or medium. 2) Evidence of a transaction, preserved for the evidential information it contains.

**Records classification system:** A plan for the systematic identification and arrangement of business activities and/or records into categories according to logically structured conventions, methods and procedural rules represented in the classification system.

**Recording:** Anything on which sounds or images or both are fixed or from which sounds or images or both are capable of being reproduced, regardless of form.

**Record keeping:** Making and maintaining complete, accurate and reliable evidence of official business in the form of recorded information.

**Records management:** Records management is a process of ensuring the proper creation, maintenance, use and disposal of records throughout their life cycle to achieve efficient, transparent and accountable governance.

**Retention period:** The length of time that records should be retained in offices before they are either transferred into archival custody or destroyed/deleted.
Schedule for records other than correspondence systems:
A control mechanism for records other than correspondence files (other records), which contains a
description and the disposal instructions and retention periods of all other records. It consists of the
following parts:

- Schedule for paper-based records other than correspondence files;
- Schedule for electronic records systems other than the electronic correspondence system;
- Schedule for microfilm records;
- Schedule for audio-visual records.

System technical manual:  A manual containing information regarding the hardware, software and
network elements that comprise the system and how they interact. Details
of all changes to a system should also be documented.

System procedures manual:  A manual containing all procedures relating to the operation and use of the
electronic system, including input to, operation of and output from the
system. A system procedures manual would contain detailed procedures
regarding –

- Document capture
- Document scanning
- Data capture
- Indexing
- Authenticated output procedures
- File transmission
- Information retention
- Information destruction
- Backup and system recovery
- System maintenance
- Security and protection
- Use of contracted services
- Workflow
- Date and time stamps
- Version control
- Maintenance of documentation

A systems procedures manual should be updated when new releases force
new procedures.
