Civil Engineering Services

Sub-directorate: Water Purification, Sewerage Treatment and Sanitation (Vacuum Tanker Services)

Potable Water Quality Monitoring

Microbiological Determinands: Risk - Acute Health

168					**6**		

*Acute Health Determinand that poses an immediate unacceptable health risk if present, or concentration values exceeding the numerical limits specified.

*Operational Determinand that is essential for assessing the efficient operation of treatment systems and risks to infrastructure.

Total number of samples taken for the month	**168**
Total number of samples passed for the month	**162**
Total number of samples failed for the month	**6**
Percentage of compliant water samples for the month	**97.0%**
